TAXUD/UCC-IA/2014-3

**Consolidated preliminary draft of the
UNION CUSTOMS CODE IMPLEMENTING ACT**

DISCLAIMER

I. Purpose of the document

This document is a consolidation of the preliminary draft UCC-IA issued by DG TAXUD, which takes the state of play of discussions with Member States and other stakeholders during the Second Review Cycle (September - December 2014) as well as comments by the Customs Policy Group (CPG) into account. It shall be the basis for any further discussion with Member States and other stakeholders, including in the meetings scheduled in the week of 12 January 2015.

In the last CPG, Member States have requested to continue reflections on the administrative transition, which is why the consolidated version does not contain a Title IX. The meetings in the week of 12 January will among other focus on the question how to word Title IX and whether it might be a better option to add specific provisions on administrative transitions needed, in the Title or Chapter concerned.

Also under Article IA-IV-1-01, Electronic systems, the text captures discussions in the recent CPG which found that, based on the report of the project group supporting analysis of the implementation feasibility for objectives 1-2 of the EU risk management strategy, the work towards a Business Case and a Vision Document has to be progressed prior to proposing detailed legal text.

This document does not incorporate provisions concerning **Business Continuity Plans** to be applied in case of temporary failure of IT systems. Those provisions will be drafted at a later stage, once the processes and the provisions based on the normal use of electronic data processing techniques will be sufficiently stable.

The **Annexes A, B and 12 will be** consolidated in a separate document to be made available by 15.01.2015.

II. Legal follow-up

It has to be borne in mind that the preliminary draft IA are currently under review by the Commission's Legal Service and that this will result in changes to the wording without changes to the content of the provisions. The legal revision focuses on ensuring consistency, ensuring legal empowerments are respected and on making the text clearer and easier to read.

This document is a background document and it may have to be updated to take into account changes that result from the subsequent meetings, as well as from the Inter Service Consultation and from various policy initiatives (e.g. Blue belt e-manifest, Air Cargo Security, etc.). For the sake of transparency, Member States and stakeholders will be kept informed.

III. Business Process Modelling (BPM) follow-up

The related BPM models will be aligned with this document.

IV. How to read the document

The provisional structure of the consolidated preliminary draft of the UCC-IA is based on the one of the UCC, including Chapters or Sections which do not call for any implementing act provisions.

After each Article number there is a heading showing the Union Customs Code provision to be implemented and the empowering provision for doing so. References have been also made to the current implementing provisions, if any, as well as to possible Annexes and to the adoption procedure.

TITLE II

FACTORS ON THE BASIS OF WHICH IMPORT OR EXPORT DUTY AND OTHER MEASURES IN RESPECT OF TRADE IN GOODS ARE APPLIED

CHAPTER 1

Common Customs Tariff and tariff classification of goods

I – MANAGEMENT OF TARIFF QUOTAS DESIGNED TO BE USED FOLLOWING THE CHRONOLOGICAL ORDER OF DATES OF ACCEPTANCE OF CUSTOMS DECLARATIONS

Article IA-II-1-01 (210-01-IA)

General rules on the uniform management of tariff quotas

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 56(4)	Article 58(1)	Article 308a	-	IA

1. Save as otherwise provided, where tariff quotas are opened by a Union legislation, those tariff quotas shall be managed in accordance with the chronological order of dates of acceptance of customs declarations for release for free circulation.
2. Where a customs declaration for release for free circulation incorporating a valid request by the declarant to benefit from a tariff quota is accepted, the Member State concerned shall draw from the tariff quota, through the Commission, a quantity corresponding to its needs.
3. Member States shall not present any request for drawing from a tariff quota until the conditions on required supporting documents laid down in Articles 163 and 167(1) of the Code (522-2-04-IA) [Current IP provision: Article 256 (2) and (3)] are satisfied.
4. Subject to paragraph 8, allocations on a tariff quota shall be granted by the Commission on the basis of the date of acceptance of the relevant customs declaration for release for free circulation, and to the extent that the balance of the relevant tariff quota so permits. Priority shall be established in accordance with the chronological order of these dates.
5. The Member States shall communicate electronically to the Commission all valid requests for drawing without delay. Those communications shall include the date referred to in paragraph 4, and the exact quantity applied for on the relevant customs declaration.
6. For the purposes of management of tariff quotas, the Commission shall fix order numbers where none are provided by the Union legislation opening the tariff quota.

7. If the quantities requested for drawing from a tariff quota are greater than the balance available, allocation shall be made on a pro rata basis with respect to the requested quantities.

8. For the purposes of this Article, acceptance of a declaration by the customs authorities on 1, 2 or 3 January shall be regarded as acceptance on 3 January. However, if one of those days falls on a Saturday or a Sunday, such acceptance shall be regarded as having taken place on 4 January.

9. Where a new tariff quota is opened, drawings shall not be granted by the Commission before the 11th working day following the date of publication of the Union legislation which created that tariff quota. Subject to Article IA-II-1-02(2) (210-02(2) IA) [Current IP provision: Article 308b (2)], the first allocation on a new tariff quota shall take into account all unanswered requests which relate to customs declarations for release for free circulation accepted since the first day of the validity period of the tariff quota and which have been communicated to the Commission. Priority shall be established in accordance with the chronological order of the dates of acceptance of the customs declarations.

10. Member States shall immediately return to the Commission the quantities drawn which they do not use. However, where an erroneous drawing representing a customs debt of less than EUR 10 is discovered after the first month following the end of the period of validity of the tariff quota concerned, Member States do not need to make a return.

11. If the customs authorities invalidate a customs declaration for release for free circulation in respect of goods which are the subject of a request for benefit from a tariff quota, the complete request shall be cancelled in respect of those goods. The Member States concerned shall immediately return to the Commission any quantity drawn, in respect of those goods, from the tariff quota.

12. All details of drawings requested by individual Member States shall be treated by the Commission and other Member States as confidential, as provided for in Article 12(1) of the Code.

2. Certificates of origin shall be issued by the competent governmental authorities of the third country concerned, hereinafter referred to as the issuing authorities, if the products to which the certificate relates can be regarded as having their origin in that country in accordance with Article 60 of the Code.

3. Certificates of origin shall be issued when the products to which they relate are exported, and the issuing authority shall keep a copy of each certificate of origin issued.

4. Exceptionally, the certificates of origin referred to above may be issued after the export of the products to which they relate, where the failure to issue them at the time of such export was a result of involuntary error or omission or special circumstances.

The issuing authorities may not issue retrospectively a certificate of origin provided for in paragraph 1 until they have checked that the particulars in the exporter's application correspond to those in the relevant export file.

Article IA-II-2-02 (221-02-IA)

Exchange of information relating to certificates of origin for certain products subject to special import arrangements

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 61	Article 63	Article 63	-	IA

Where the special import arrangements for certain products provide for the use of the certificate of origin laid down in Article IA-II-2-01 (221-01-IA), the entitlement to use such arrangements shall be subject to the setting up of an administrative cooperation procedure unless specified otherwise in the arrangements concerned.

To this end the third countries concerned shall send to the Commission:

- (a) the names and addresses of the issuing authorities for certificates of origin together with specimens of the stamps used by the said authorities;
- (b) the names and addresses of the government authorities to which requests for the subsequent verification of origin certificates provided for in Article IA-II-2-03 (221-03-IA) should be sent.

For origin matters the verification shall be carried out on the initiative of the customs authorities.

For the purposes of agricultural rules, the verification may be carried out, where appropriate, by other competent authorities.

2. For the purposes of paragraph 1, the competent authorities in the Union shall return the certificate of origin or a copy thereof to the governmental authority designated by the exporting country, giving, where appropriate, the reasons of form or substance for an enquiry. If the invoice has been produced, the original or a copy thereof shall be attached to the returned certificate of origin. The authorities shall also provide any information that has been obtained suggesting that the particulars given on the certificate of origin are inaccurate or that the certificate of origin is not authentic.

Should the customs authorities in the Union decide to suspend the application of the special import arrangements concerned pending the results of the verification they shall grant release of the products subject to such precautions as they consider necessary.

3. The results of subsequent verifications shall be communicated to the competent authorities in the Union as soon as possible.

The said results shall be such as to enable the competent authority to determine whether certificates of origin subject to subsequent verification apply to the goods actually exported and whether the latter may actually give rise to application of the special import arrangements concerned.

5. Where a statement on origin is replaced, the re-consignor shall indicate the following on the initial statement on origin:

- (a) the particulars of the replacement statement(s) on origin;

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 64	Article 66	- none - Article 115	-	IA

1. Where originating products covered by a proof of preferential origin issued or made out previously for the purpose of allowing benefit from measures referred to in Article 56(2) (d), or (e) other than the Union's GSP, of the Code are placed under the control of a customs office in the Union and have not yet been released for free circulation, it shall be possible to replace the initial proof of origin by one or more replacement proofs for the purpose of sending all or some of these products elsewhere within the Union.

2. Where the provisions of the relevant preferential arrangement adopted or agreement concluded by the Union provide that the proofs shall be movement certificates EUR.1 or other

governmental certificates of origin, origin declarations or invoice declarations, the replacement proofs of origin shall be:

- (a) a replacement origin declaration or invoice declaration:
 - (i) made out by an approved exporter acting as re-consignor of the goods;
 - (ii) made out by any exporter acting as re-consignor of the goods either where the total value of originating products in the initial consignment to be split does not exceed the value threshold above which the exporter must be an approved exporter or, where it exceeds that threshold, if the re-consignor attaches a copy of the initial proof of origin to the replacement origin declaration(s) or invoice declaration(s).
- (b) a movement certificate EUR.1 issued by the customs office under whose control the goods are placed, where the re-consignor is neither an approved exporter nor able to accept that a copy of the initial proof of origin be attached to the replacement proof and the total value of originating products in the initial consignment exceeds the value threshold above which the exporter must be an approved exporter.

The customs authorities issuing the replacement certificate shall endorse box 11. The responsibility of the authorities shall be confined to the issue of the replacement certificate. The particulars in box 12 concerning the country of origin shall be taken from the original proof of origin. This box shall be signed by the re-consignor. A re-consignor who signs this box in good faith shall not be responsible for the accuracy of the particulars entered on the original proof of origin.

The customs office which is requested to issue the replacement certificate shall note on the initial proof of origin or on an attachment to it the weights, numbers, nature of the products forwarded and their country of destination and indicate thereon the serial numbers of the corresponding replacement certificate or certificates. It shall keep the initial proof of origin for at least three years. A photocopy of the initial proof of origin may be annexed to the replacement certificate.

3. Where the provisions of the relevant preferential arrangement or agreement concluded by the Union provide that the proofs shall be statements on origin, the replacement statements on origin shall be made out by the holder of the goods who acts as re-consignor.

For being entitled to make out replacement statements on origin:

- (a) where the total value of originating products of the initial consignment to be split does not exceed the value threshold above which the exporter must be a registered exporter, the re-consignor need not be a registered exporter itself;
 - (b) where the total value of originating products of the initial consignment to be split exceeds the value threshold above which the exporter must be a registered exporter, the re-consignor:
 - shall be itself a registered exporter in the EU;
- or
- shall attach a copy of the initial statement on origin to the replacement statement on origin.

Related Party transactions

Article 70(3)(d)	Article 76(b)	none (CC Article 29(2))	Yes	IA

1. In determining whether the transaction value is acceptable for the purposes of point (d) of Article 70(3) of the Code, the fact that the buyer and the seller are related shall not in itself be sufficient grounds for regarding the transaction value as unacceptable. Where necessary, the circumstances surrounding the sale may be examined and the transaction value shall be accepted provided that the relationship did not influence the price.

2. Where the customs authorities are unable to accept the transaction value without further inquiry, they should give the declarant an opportunity to supply such further detailed information as may be necessary to enable it to examine the circumstances surrounding the sale. In this context, the customs authorities should be prepared to examine relevant aspects of the transaction, including the way in which the buyer and seller organise their commercial relations and the way in which the price in question was arrived at, in order to determine whether the relationship influenced the price.

3. In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with Article 70(1) of the Code wherever the declarant demonstrates that such value closely approximates to one of the following occurring at or about the same time:

- (a) the transaction value in sales, between buyers and sellers who are not related in any particular case, of identical or similar goods for export to the customs territory of the Union;
- (b) the customs value of identical or similar goods, as determined under point (c) of Article 74(2) of the Code;
- (c) the customs value of identical or similar goods, as determined under point (d) of Article 74(2) of the Code.

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in Article 71 of the Code and costs incurred by the seller in sales in which he and the buyer are not related and where such costs are not incurred by the seller in sales in which he and the buyer are related.

4. The tests set forth in paragraph 3 are to be used at the initiative of the declarant and only for comparison purposes. Substitute values may not be established under paragraph 3.

Royalties and licence fees

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 71(1)(c)	Article 76(a)	(Art. 32 CC)	-	IA

1. For the purposes of point (c) of Article 71(1) of the Code, royalties and licence fees refers to payment for the use of rights relating to, inter alia, know-how, trademarks, copyright, patents, designs and models.

2. Royalties and licence fees are related to the imported goods where in particular, the rights transferred under the licence or royalties agreement are *embodied in the goods*. The method of calculation of the amount of the royalty or licence fee is not the decisive factor.

However, where the method of calculation of the amount of a royalty or licence fee derives from the price of the imported goods, it may be assumed in the absence of evidence to the contrary that the payment of that royalty or licence fee is related to the goods to be valued.

3. If royalties or licence fees relate partly to the imported goods and partly to other ingredients or component parts added to the goods after their importation, or to post-importation activities or services, an appropriate apportionment may be made only on the basis of objective and quantifiable data.

4. Payments made by the buyer for the right to distribute or resell the imported goods are not part of the customs value if such payments are not a condition of the sale of the goods for export to the customs territory of the Union.

5. Royalties and licence fees are considered to be paid as a condition of sale for the imported goods when any of the following conditions is met:

- (a) the seller or person related to the seller requires the buyer to make this payment;
- (b) the payment by the buyer is made to satisfy an obligation of the seller, in accordance with contractual obligations;
- (c) the goods cannot be sold to, or purchased by the buyer without payment of the royalties or license fees to a licensor.

6. The country in which the recipient of the royalty or licence payment is established is not a material consideration.

Deductive method

Article 74 (2) (c)	Article 76(c)	Article 152	Annex XX	IA

1. The unit price used to determine the customs value under point (c) of Article 74(2) of the Code shall be the price at which the imported goods or imported identical or similar goods are sold in an unaltered state in the customs territory of the Union at or about the time of importation of the goods being valued.

2. Where no unit price can be determined under paragraph 1, the unit price used shall be the price at which the imported goods or imported identical or similar goods are sold in an unaltered state in the customs territory of the Union at the earliest time after the importation of the goods to be valued and in any case within 90 days of that importation.

3. Where no unit price can be determined under either paragraph 1 or paragraph 2, upon application by the importer the unit price at which the imported goods are sold in the customs territory of the Union after further working or processing shall be used. In this case account shall be taken of the increase in value resulting from the working or processing.

4. The following sales shall not be taken into account for the purposes of determining customs value under point (c) of Article 74(2) of the Code:

- (a) sales of goods at a commercial level other than the first after importation;
- (b) sales to related persons;
- (c) sales to persons who directly or indirectly supply, free of charge or at reduced cost, the goods or services listed in point (b) of Article 71(1) of the Code for use in connection with the production and sale for export of the imported goods;
- (d) sales in quantities which are not sufficient to allow the unit price to be determined.

5. Where there is more than one relevant unit price, the unit price at which the greatest aggregate quantity is sold shall be used.

6. In determining the customs value, the following should be deducted from the unit price determined under the above paragraphs:

- (a) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses (including the direct and indirect

costs of marketing the goods in question) in connection with sales in the customs territory of the Union of imported goods of the same class or kind;

- (b) the usual costs of transport and insurance and associated costs incurred within the customs territory of the Union;
- (c) the import duties and other charges payable in the customs territory of the Union by reason of the import or sale of the goods.

7. The customs value of certain perishable goods as referred to in Annex 23-02 imported on consignment may be directly determined in accordance with point (c) of Article 74(2) of the Code. For this purpose the unit prices shall be notified to the Commission by the Member States and disseminated by the Commission via TARIC in accordance with Article 6 of Council Regulation (EEC) No 2658/87.

Such unit prices may be used to determine the customs value of the imported goods for periods of 14 days; each period shall start on a Friday.

The unit prices shall be calculated and notified as follows:

- (a) after the deductions provided for in paragraph 6, a unit price per 100 kg net for each category of goods shall be notified by the Member States to the Commission. The Member States may fix standard amounts for the costs referred to point (b) of paragraph 6, which shall be made known to the Commission;
- (b) the reference period for determining the unit prices shall be the preceding period of 14 days which ends on the Thursday preceding the week during which new unit prices are to be established;
- (c) the unit prices shall be notified by the Member States to the Commission in Euro not later than 12.00 on the Monday of the week in which they are disseminated by the Commission. Where that day is a non-working day, notification shall be made on the working day immediately preceding that day. Unit prices shall only apply if this notification is disseminated by the Commission.
