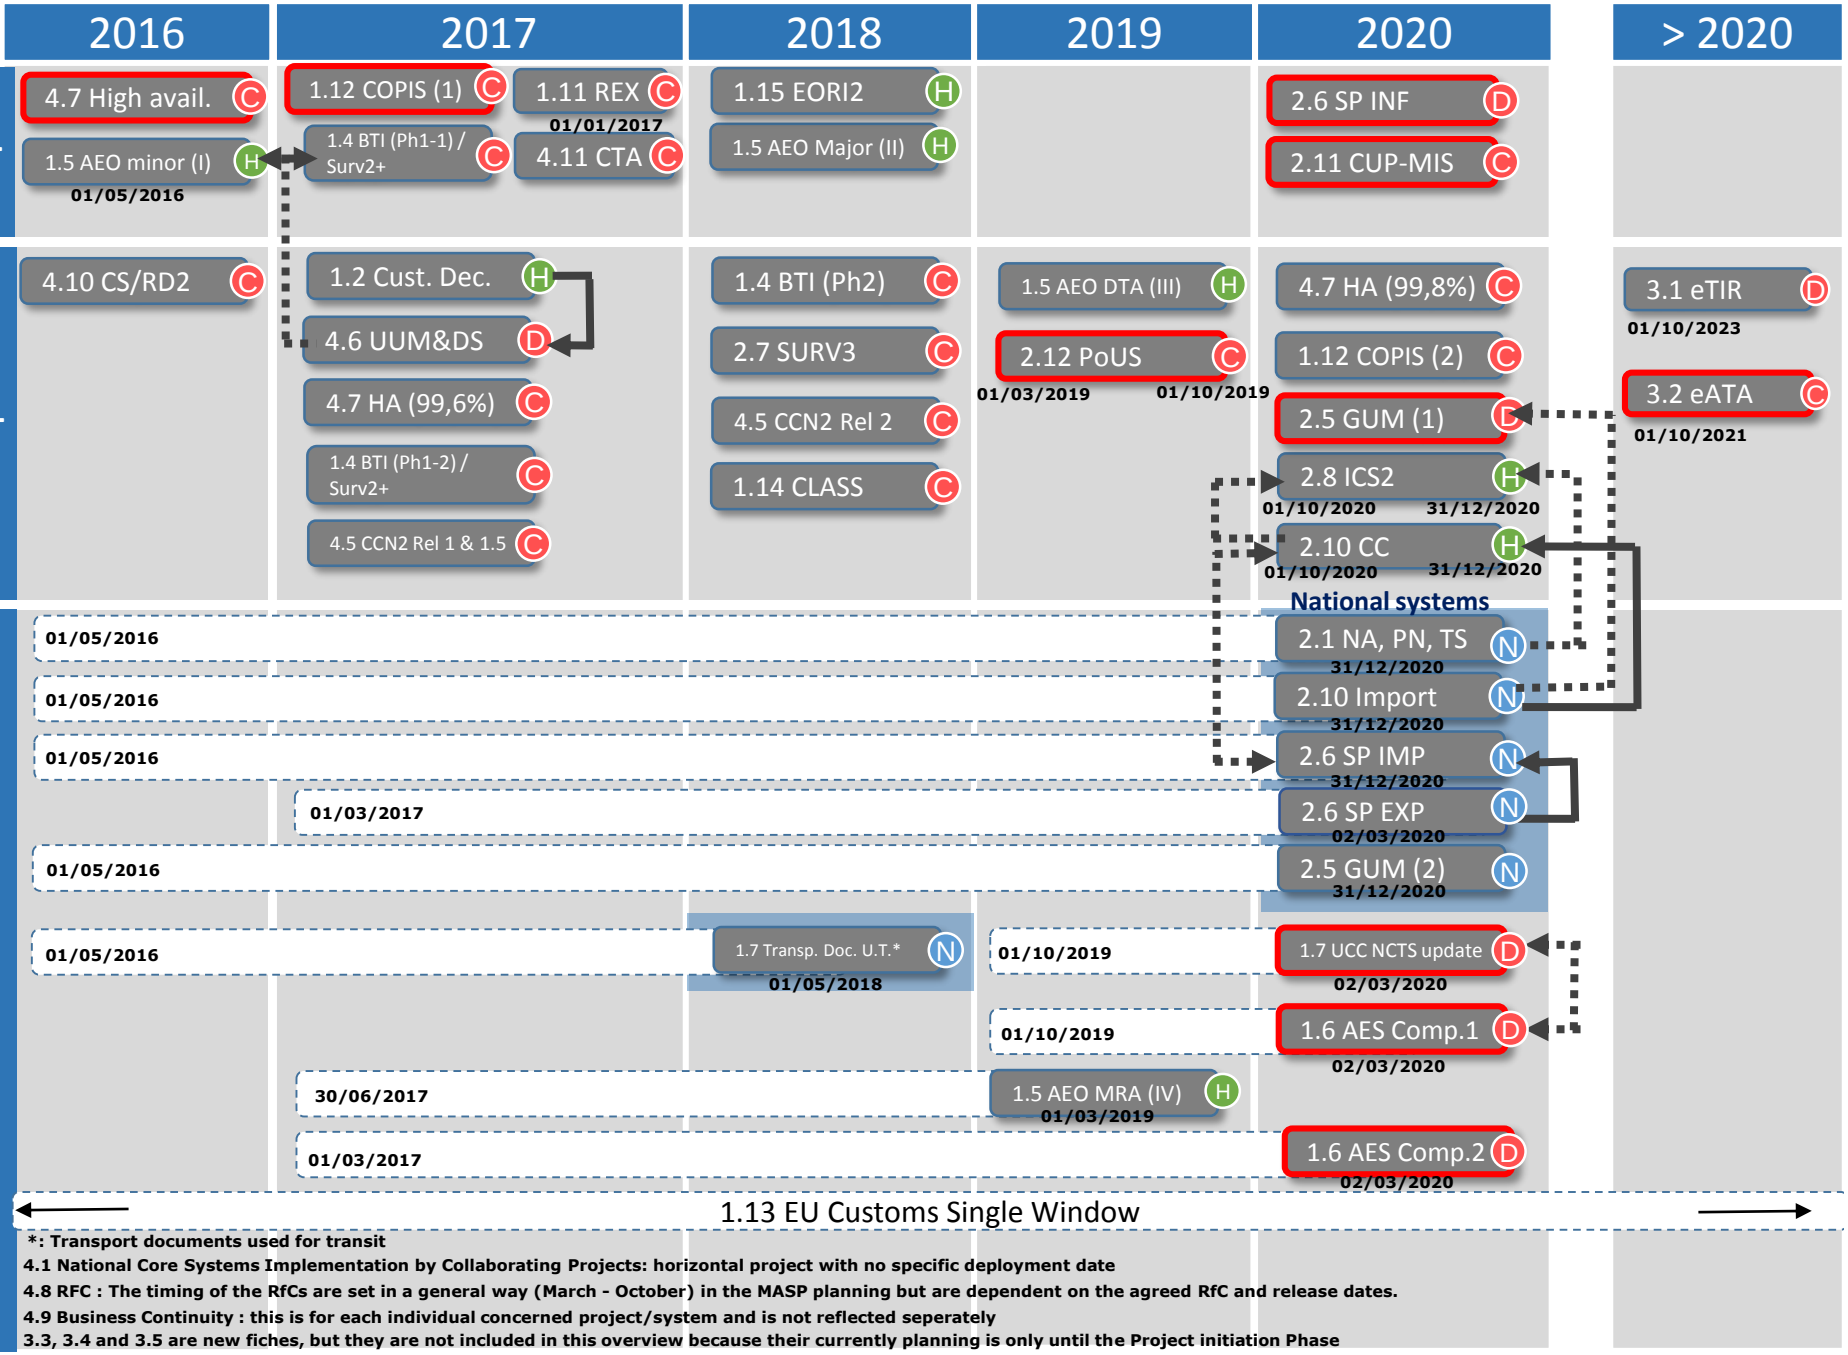
Planning overview

Disclaimer: v1.3 – Work in Progress

Legenda: Prerequisite, Link, Central, Distributed, Hybrid, National, delayed



*: Transport documents used for transit

4.1 National Core Systems Implementation by Collaborating Projects: horizontal project with no specific deployment date

4.8 RFC : The timing of the RfCs are set in a general way (March - October) in the MASP planning but are dependent on the agreed RfC and release dates.

4.9 Business Continuity : this is for each individual concerned project/system and is not reflected seperately

3.3, 3.4 and 3.5 are new fiches, but they are not included in this overview because their currently planning is only until the Project initiation Phase
