New Swedish Customs Signature Certificate for electronic data interchange (EDI)

Observe that most companies need two types of signature certificates from Swedish Customs for the EDI communication, the Company Signature Certificate and the Swedish Customs Signature Certificate. We are now replacing the Swedish Customs Signature Certificate, not Your Company Signature Certificate.

Swedish Customs Signature Certificate, that we use to sign messages that we send to You, will be replaced **March 21, 2023, at 12.00 PM UTC**, which means that the new certificate must be installed in Your system before that time.

Observe that the current Swedish Customs Signature Certificate must remain in Your system until You have downloaded and verified the signature in all documents signed by Swedish Customs up to and including March 21, 2023.

The validity period for the new signature certificate is 14 months.

Swedish Customs Signature Certificate

serialNumber=SE2021000969,OU=Swedish Customs,O=Tullverket,C=SE,CN=Tullverket EDI

New Swedish Customs Signature Certificate, used from and including March 21, 2023, can be downloaded from the following addresses:

PEM-format http://ca.tullverket.se/ca/TullverketEDI20230207.crt
DER-format http://ca.tullverket.se/ca/TullverketEDI20230207.cer

Current Swedish Customs Signature Certificate, used up to and including March 21, 2023, can be downloaded from:

PEM-format http://ca.tullverket.se/ca/TullverketEDI20220221.crt
DER-format http://ca.tullverket.se/ca/TullverketEDI20220221.cer

Technical details regarding the EDIFACT data elements "Key name" and "Certificate reference" in AUTACK

The data elements "Key name" and "Certificate reference" in the AUTACK message are used to decide which signature certificate that has been used. These values can be calculated automatically by the customs management systems, but there may be systems where these values must be registered manually.

Technical specifications SCTS-SC for the AUTACK message can be found on: https://www.tullverket.se/sv/foretag/deklareradigitalt/ediforsystemutvecklare/editekniska specifikationer/sctssc.4.4481397d16411b864651709.html

Swedish Customs Signature Certificate

"Key name" for the new Swedish Customs Signature Certificate, used from and including March 21, 2023, is "`swhPGb2wmoFps6OSYUhb2lIT208=`" and "Certificate reference" is "`AYYq0TpD`".

"Key name" for the current Swedish Customs Signature Certificate, used up to and including March 21, 2023, is "`swhPGb2wmoFps6OSYUhb2lIT208=`" and "Certificate reference" is "`AX8c5YxI`".

More information

More information about the PKI-based security concept for EDI communication can be found on the page "EDI – Security Concept", https://www.tullverket.se/edisecurity.
