High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
INTRODUCTION	

# 1. INTRODUCTION

## 1.1. Document Purpose

This document presents the high level and business requirement BPMs for Export and Exit. Annexes to this report contain the model graphics and business requirements that support the readability of this report.

## 1.2. Deviation From TEMPO

The following TEMPO sections are not part of this document:

- Sign Off list;
- Distribution List;
- Scope;
- Applicable Documents;
- List of Tables;
- List of Figures.

The following TEMPO sections are added to this document:

- Project Ownership;
- Intended Audience.

## 1.3. Assumption and Constraints

The reader should have a basic knowledge of the levelling guidelines [R01].

## 1.4. Project Ownership

The unit DG TAXUD B1 is the project owner of this EU Customs High Level and Business Requirements BPM Report.

## 1.5. Intended Audience

The purpose of this document is to establish a common understanding between readers that are familiar with the applicable documents and may belong to the following categories:

- Any person responsible for the Export business processes and requirements;
- Any person of the development team of DG TAXUD/R5 who will use this document as a reference during the development cycle;
- Any person from the DG TAXUD units who has to verify whether the current document is consistent with the applicable documents and depicts the solution to be followed;
- Any Member State (MS) or Trade representatives who have to identify the actions, implications, and consequences on their national domain, including both businesspeople and people having an IT background.

## 1.6. Structure of Document

This document is organised as follows:

- Introduction;
- References, containing a list of acronyms and abbreviations and the documents referenced in this report;
- Document History, listing the different versions and submission dates of this report;
- High Level Business Overview, providing an overview of the business domain and the actors, and mentioning the legal units responsible for the business domain covered in this report

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
INTRODUCTION	

- Process Models, visualising in separate sections information from the high level and business requirement BPMs relating to the business domain covered in this report.

In a separate report, the following related annex may be found:

- Annex 1: Model Graphics
- Annex 2: Business Requirements, providing a list of all business requirements for the processes covered in this report
- Annex 3: List of Amendments.

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
HIGH LEVEL BUSINESS OVERVIEW	

## 4. HIGH LEVEL BUSINESS OVERVIEW

### 4.1. Business Domain Overview

The Export and Exit business domain consists out of processes for Union goods destined to leave the customs territory of the Union and placed under the export procedure and processes for the exit of goods.

The relationship between this business domain and other EU Customs business domains can be found in the EU Customs Global and Interaction BPM Report [ R02].

### 4.2. Actors

ACTOR	ROLE
Customs Office of Export	N/A
Customs Office	<p>- Customs Office of Exit: Customs office of exit means, in the context of the exit summary declaration or re-export notification, the customs office competent for the place from where the goods will leave the customs territory of the Union.</p> <p>However where the goods are to leave the customs territory of the Union by air or sea, 'customs office of exit' means the customs office competent for the place where the goods are loaded onto the vessel or aircraft on which they will be brought to a destination outside the customs territory of the Union;</p> <p>- Customs Office of Export The customs office designated by the customs authorities in accordance with the customs legislation where for goods leaving the customs territory of the Union the formalities for placing them under the export procedure are to be carried out or where a re-export notification is to be lodged, where applicable.</p> <p>- Supervising Customs Office: In the scenarios of Centralised Clearance for Export, the Supervising Customs Office is the Customs Office of Export. In this case, this is the customs office indicated in the authorisation to supervise the procedure.</p>
Declarant/ Representative	<p>-The person established in the customs territory of the Union who declares the goods to be exported with the consignee established outside the customs territory of the Union;</p> <p>- The person lodging a summary declaration or a re-export declaration, or making a customs declaration in his own name or the person in whose name such a declaration is made.</p>

High Level and Business Requirements BPM Report		REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit		
HIGH LEVEL BUSINESS OVERVIEW		
Customs Office of Exit	N/A	
Customs Office of Export	The customs office designated by the customs authorities in accordance with the customs legislation where for goods leaving the customs territory of the Union the formalities for placing them under the export procedure are to be carried out or where a re-export notification is to be lodged, where applicable.	
Requesting Customs Office	A Requesting Customs Office is any Customs Office that in order to complete their tasks requests to check an operation's status with its latest status update.	
Customs Office Of Departure	The Customs Office where the customs declaration placing goods under a transit procedure is accepted and where the transit movement starts its journey towards the Actual Office of Destination.	
MSA of Export	The Administration in the Member State where the Office of Export is located, which is responsible for generating an EMCS Report of Export, based on exit results forwarded by the Office of Export to EMCS.	
Declarant or Representative	The Declarant or Representative can be the person presenting the goods or the holder of the temporary storage facility or the holder of a storage facility in a free zone or any other person able to present the goods where the person presenting the goods has been informed, and given its consent under a contractual arrangement, that this person lodges the declaration.	
Customs Office of Exit or Customs Office of Lodgement	<p>Customs office of exit means, in the context of the exit summary declaration or re-export notification, the customs office competent for the place from where the goods will leave the customs territory of the Union.</p> <p>However where the goods are to leave the customs territory of the Union by air or sea, 'customs office of exit' means the customs office competent for the place where the goods are loaded onto the vessel or aircraft on which they will be brought to a destination outside the customs territory of the Union;</p>	
Subsequent Customs Office of Exit	In case of split exit, the subsequent customs office is the customs office subsequent to the first customs office of exit where goods are presented before leaving the customs territory of the Community to a destination outside the customs territory of the Community.	
Trader	<p>Trader as Declarant/Representative: in case of controls performing at Export side, with Customs Office being Customs Office of Export.</p> <p>Trader as Trader at Exit: in case of controls performing at Exit side, with Customs Office being Customs Office of Exit.</p>	
Trader at First Customs Office of Exit	The trader presenting goods at the first customs office of exit.	

High Level and Business Requirements BPM Report		REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit		
HIGH LEVEL BUSINESS OVERVIEW		
Declarant/ Representative	<p>-The person established in the customs territory of the Union who declares the goods to be exported with the consignee established outside the customs territory of the Union;</p> <p>- The person lodging a summary declaration or a re-export declaration or making a customs declaration in his own name or the person in whose name such a declaration is made.</p>	
Requesting Customs Office	This is the customs office that requests operation information.	
Person Presenting the Goods at First Customs Office of Exit	The person transporting goods for another person.	
Customs Office of Exit	The customs office competent for the place from where the goods will leave the customs territory of the Union to a destination outside the customs territory of the Union.	
Trader at Exit	The person responsible for presenting the goods to the relevant customs office before they exit the customs territory of the Community.	
Declarant	Holder of an authorisation for simplified procedure	
Customs Office	<p>- Customs Office of Exit:</p> <p>In the context of the export declaration, the last customs office before the goods leave the customs territory of the Union for a destination outside that territory.</p> <p>However:</p> <p>(a) in the case of goods leaving the customs territory of the Union by pipeline and cable for electrical energy, 'customs office of exit' means the customs office of export; or</p> <p>(b) where the goods are loaded on the vessel or the aircraft on which they will leave the customs territory of the Union by air or sea, 'customs office of exit' means the customs office competent for that place.</p> <p>On request, the customs office of exit shall be the customs office competent for the place where the goods are taken over under a single transport contract for transport of the goods out of the customs territory of the Union by the railway companies, the airlines or the shipping companies, provided that the goods are to leave the customs territory of the Union by rail, air or sea.</p> <p>- Customs Office of Export</p> <p>The customs office designated by the customs authorities in accordance with the customs legislation where for goods leaving the customs territory of the Union the formalities for placing them under the export procedure are to be carried out or where a re-export declaration is to be lodged, where applicable.</p>	
MSA of Dispatch	The Member State where the place of dispatch is located.	

High Level and Business Requirements BPM Report		REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit		
HIGH LEVEL BUSINESS OVERVIEW		
Customs Office of Export	The customs office designated by the Customs Authorities in accordance with the customs legislation where for goods leaving the customs territory of the Community the formalities for placing them under the export, outward processing procedure are to be carried out or where a re-export notification is to be lodged, where applicable.	
Holder of the Goods	The person who is the owner of the goods or who has a similar right of disposal over them or who has physical control of them.	
Customs office	<p>Customs Office can either be:</p> <p>- Customs Office of Exit:</p> <p>Customs office of exit means, in the context of the export declaration, the last customs office before the goods leave the customs territory of the Union for a destination outside that territory.</p> <p>However:</p> <p>(a) in the case of goods leaving the customs territory of the Union by pipeline and cable for electrical energy, 'customs office of exit' means the customs office of export; or</p> <p>(b) where the goods are loaded on the vessel or the aircraft on which they will leave the customs territory of the Union by air or sea, 'customs office of exit' means the customs office competent for that place;</p> <p>Customs office of exit means, in the context of the exit summary declaration or re-export notification, the customs office competent for the place from where the goods will leave the customs territory of the Union.</p> <p>However where the goods are to leave the customs territory of the Union by air or sea, 'customs office of exit' means the customs office competent for the place where the goods are loaded onto the vessel or aircraft on which they will be brought to a destination outside the customs territory of the Union;</p> <p>- Customs Office of Export</p> <p>The customs office designated by the customs authorities in accordance with the customs legislation where for goods leaving the customs territory of the Union the formalities for placing them under the export procedure are to be carried out or where a re-export notification is to be lodged, where applicable.</p>	
Declarant/ Representative	The person lodging a customs declaration, a temporary storage declaration, an entry summary declaration, an exit summary declaration, a re-export declaration or a re-export notification in his or her own name or the person in whose name such a declaration or notification is lodged.

## 5. Process Models

This section provides the full business process documentation of the processes, events and tasks within the scope of this business domain.

For each business process the process details, such as assumptions and reference documents, are documented. In addition a set of tables describe each process flow component (events and tasks) with further details regarding their legal references and additional descriptive information where necessary.

In Annex 1 and Annex 2 the related model graphic and business requirements can be found, respectively.

## 5.2.2. Process L3-EXP-01-02-Export Declaration Directly Lodged at Customs Office of Exit

### 5.2.2.1. Objective of Process

This process describes the handling of a standard customs export declaration when the customs office of export is the same as the customs office of exit. This process includes the acceptance of the declaration and controls on the goods. When the goods are released for export, the customs office will wait for the presentation of the goods for exit before handling deciding upon exit certification.

## 5.2.9. Process L3-EXP-01-09-Enquiry Procedure

### 5.2.9.1. Objective of Process

This process describes the initiation of the Enquiry Procedure at the Customs Office of Export when there is an outstanding export procedure where no exit results have been received from the Customs Office of Exit and the time limit of 90 days to receive exit results has expired. In this case, the Customs Office of Export requests from the Trader to provide evidence related to the whereabouts of the movement. Enquiry Procedure can also be initiated at the Customs Office of Export when the Trader provides additional information to communicate the exit of the goods to the Customs Office of Export on his own initiative. In the first case, a timer for the Trader to provide evidence is initiated at the Customs Office of Export. If this timer expires or if the provided evidence is insufficient, the customs declaration may be invalidated. If the evidence is sufficient, the exit will be certified.

## 5.2.10. Process L3-EXP-01-10-Anticipated Export Record

### 5.2.10.1. Objective of Process

This process describes the exit formalities at the Customs Office of Exit that is started with the receipt of the anticipated export record. This process includes risk analysis and the possibility to perform controls. Upon arrival of the goods at Customs Office of Exit, any goods which are in excess are refused exit. Then, if the goods cannot be released for exit based on the risk analysis result and the information received, the person presenting the goods is notified. Exit Results are sent to the Customs Office of Export. If the goods can be released for exit, the Customs Office of Exit informs the person presenting the goods and will wait for the exit of all consignments before sending the exit results to the Customs Office of Export.

### 5.2.10.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-EXP-01-10
Full Name	Anticipated Export Record
Assumptions	<ul style="list-style-type: none"> <li>The exit formalities at the customs office of exit could also be started with non-electronic presentation according to Art. 246 DA.</li> <li>According to Art. 247 (1) IA where, for any of the reasons listed in Article 198(1)(b) of the Code, the goods cannot be released or where, after their release, the goods are found not to have fulfilled the conditions for that release the customs authorities shall give the declarant a reasonable time-limit to remedy the situation of the goods.</li> <li>For the tasks depicting interactions of the Trader actors, where there is no legal reference assigned to them, there are no FADs created. For the tasks where there is a legal reference, the FADs are created but they do not have Business Requirements connected.</li> <li>When the Arrival at Exit is registered by the Customs Officer, the Trader at Exit is known to the Customs Authorities and the related communication (i.e., information exchanges) with the Trader at Exit is possible.</li> </ul>

### 5.2.11. Process L3-EXP-01-11-Split Exit

#### 5.2.11.1. Objective of Process

In unforeseen circumstances, where goods covered by one export or re-export declaration are moved to a customs office of exit and subsequently leave the customs territory of the Union through more than one customs office of exit or in different parts (of the first customs office of exit or the subsequent customs office(s) of exit), each customs office of exit where the goods were presented shall supervise the exit of the goods which are to be taken out of the customs territory of the Union. The customs office(s) of exit shall inform the customs office of export of those goods which have been taken out of the customs territory of Union from those offices. The exporter or the declarant may request the invalidation of the customs declaration if not all goods are to exit the territory of the union. In case not all goods have exited the territory of the Union and 90 days have expired after the goods were released for export, then the enquiry procedure is initiated. As a result if there is still part of the goods that have not exited (negative exit results), invalidation of the customs declaration follows. If positive exit results are found for all goods, then exit is certified.

#### 5.2.11.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-EXP-01-11

High Level and Business Requirements BPM Report		REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit		
PROCESS MODELS		
Full Name	Split Exit	
Assumptions	<ul style="list-style-type: none"> <li>• Goods covered by one export or re-export declaration can be taken out of the territory of the Union via several customs offices of exit under split exit or in different parts of the same customs office of exit in unforeseen circumstances according to Art. 333 (4) IA after the goods have been initially presented to the customs office of exit.</li> <li>• The customs office of export, the first customs office of exit and the subsequent customs offices of exit can be located in different member states.</li> <li>• At any point in time it could be notified by one of the persons in Art. 267 (2) UCC that the goods are not to be taken out of the territory of the Union.</li> <li>• Enquiry procedure can be initiated in parallel 90 days after the release of the goods for export and no information for exit. Procedure can be closed due to the availability of an alternative proof according to Art. 335 (4) IA.</li> <li>• Missing goods can be established after the matching of all partial exit results.</li> <li>• According to Art. 247 (1) IA where, for any of the reasons listed in Article 198(1)(b) of the Code, the goods cannot be released or where, after their release, the goods are found not to have fulfilled the conditions for that release the customs authorities shall give the declarant a reasonable time-limit to remedy the situation of the goods.</li> </ul>

## 5.2.12. Process L3-EXP-01-12-Exit Summary Declaration

### 5.2.12.1. Objective of Process

This process describes the exit formalities at the customs office of exit that is started with the receipt of an exit summary declaration. It is possible that the office of lodgement has an intermediary role if the exit summary declaration is lodged to their office. If the goods cannot be released for exit, the Trader at Exit is notified. If the goods can be released for exit, the customs office will wait for the exit of all consignments.

An exit summary declaration shall be lodged at the customs office of exit where goods are to be taken out of the customs territory of the Union or in cases where the goods are loaded onto a vessel or aircraft on which they will be brought to a destination outside the customs territory of the Union, and a customs declaration or a re-export declaration is not lodged as pre-departure declaration. Customs authorities may allow the exit summary declaration to be lodged at another customs office, provided that the latter immediately

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	

communicates or makes available electronically the necessary particulars to the customs office of exit. Customs authorities may accept that commercial, port or transport information systems may be used to lodge an exit summary declaration.

Also, in case where the Exit Summary Declaration was lodged in a Customs Office of Lodgement, but the goods were presented in another Customs Office of Exit different than the declared, this Customs Office of Exit can request the Exit Summary Declaration Data required from the Customs Office of Lodgement. The latter can either provide the request information accepting the Diversion or reject the Diversion.

## 5.2.14. Process L3-EXP-01-14-Re-Export Notification

### 5.2.14.1. Objective of Process

This process describes the handling of a re-export notification, with the allocation of the MRN and controls on the goods. When the goods are released for exit the customs office will wait for the exit notification. Re-export notification shall be lodged in case goods are trans-shipped within, or directly re-exported from, a free zone or goods in temporary storage which are directly re-exported from the temporary storage facility and the obligation to lodge an EXS is waived. The re-export notification shall contain the particulars necessary to discharge the free zone procedure or to end the temporary storage. Customs authorities may accept commercial, port or transport information systems is used for the re-export notification lodgement.

## 5.2.15. Process L3-EXP-01-15-01-Perform Controls at PCO

### 5.2.15.1. Objective of Process

The controls at the presentation customs office are performed after the recommendation by the supervising customs office or due to the decision of the presentation customs office. If the goods have to be controlled, these controls are notified to the declarant/representative. If authorised by the competent customs office, the goods can be examined in a location other than the ones designated by the customs authorities and outside the specified for the purpose hours. Assistance from the declarant/representative can be required. When the goods are controlled, the results are documented. In case the supervising customs office needs to be informed, a notification of control results and information on release is indicated.

## 5.2.16. Process L3-EXP-01-15-02-Perform Documentary Controls at SCO

### 5.2.16.1. Objective of Process

When a documentary control is initiated, the customs declaration and the additional documents are examined. If needed additional documents are requested. Once the documentary control is completed, a check will be done if more documents are required. The control results will be indicated once the examination is finalised.

## 5.2.17. Process L3-EXP-01-15-Centralised Clearance Standard Customs Declaration

### 5.2.17.1. Objective of Process

This process describes the handling of a customs export declaration in case of centralised clearance, with the acceptance of the declaration and controls on the goods.

The Supervising Customs Office will decide whether to perform documentary controls and notify the Presentation Customs Office and the Declarant/Representative in case of release rejection. In case of Supervising Customs Office decision for pre-release or controls recommendation, Supervising Customs Office will notify the Presentation Customs Office, too.

Then, the Presentation Customs Office can still decide whether to perform controls or not and inform the Supervising Customs Office accordingly. If controls are to be performed at the Presentation Customs Office, the Supervising Customs Office is responsible to inform Declarant/Representative.

Supervising Customs Office can decide on release of the goods upon Presentation Customs Office control results.

If the goods are released for export, the Supervising Customs Office will inform Presentation Customs Office and will wait for the exit results, before certifying the exit. The supervising customs office sends the full customs declaration to the presentation customs office.

Afterwards, statistical information is sent to the statistical office.

Alternatively, if goods release is rejected, the Supervising Customs Office will notify Presentation Customs Office on non-release of the goods.

Table 5.377: Event Export Procedure Completed

## 5.2.18. Process L3-EXP-01-16-Centralised Clearance Simplified Customs Declaration

### 5.2.18.1. Objective of Process

This process describes the handling of a simplified customs export declaration in case of centralised clearance, with the acceptance of the declaration and controls on the goods.

The Supervising Customs Office will decide whether to perform documentary controls and notify the Presentation Customs Office and the Declarant/Representative in case of release rejection. In case of Supervising Customs Office decision for pre-release or controls recommendation, Supervising Customs Office will notify the Presentation Customs Office, too.

Then, the Presentation Customs Office can still decide whether to perform controls or not and inform the Supervising Customs Office accordingly. If controls are to be performed at the Presentation Customs Office, the Supervising Customs Office is responsible to inform Declarant/Representative.

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	

Supervising Customs Office can decide on release of the goods upon Presentation Customs Office control results.

If the goods are released for export, the Supervising Customs Office will inform Presentation Customs Office and will wait for the exit results, before certifying the exit. The supervising customs office sends the full customs declaration to the presentation customs office.

Afterwards, statistical information is sent to the statistical office.

Alternatively, if goods release is rejected, the Supervising Customs Office will notify Presentation Customs Office on non-release of the goods.

#### 5.2.18.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-EXP-01-16
Full Name	Centralised Clearance Simplified Customs Declaration

## 5.2.20. Process L3-EXP-01-18-Simplified Export Declaration

### 5.2.20.1. Objective of Process

This process describes the handling of a simplified customs export declaration (lodged by a declarant) by the customs office of export, with the acceptance of the declaration and controls on the goods. When the goods are released for export, the customs office of export will wait for the exit results and handle the supplementary customs declaration, before certifying the exit. If exit cannot be certified, the customs declaration will be invalidated.

### 5.2.20.2. Process Details

## 5.2.21. Process L3-EXP-01-19-Export of Goods Under Excise Duty Suspension Arrangements

### 5.2.21.1. Objective of Process

This process covers the export of goods under excise duty suspension arrangements, where the Consignor declares goods in EMCS (using an e-AD) before the Declarant / Representative declares goods in AES (using an Export Customs Declaration). MSA of Dispatch (where goods are declared in EMCS) and Customs Office of Export (where goods are declared in AES) can be the same physical office. Cancellation of the e-AD after release of the excise movement, change of destination, returned goods and splitting of the movement of excise goods according to Art. 6 Regulation (EC) 684/2009 are not covered in this process.

### 5.2.21.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-EXP-01-19
Full Name	Export of Goods Under Excise Duty Suspension Arrangements (Including the Interface Between Export and EMCS)
Assumptions	<ul style="list-style-type: none"> <li>Split Exit is excluded from the BPM.</li> <li>An Export Declaration can be invalidated at any point in the process. If the invalidation is completed, all ongoing flows should be terminated.</li> <li>If the Exit Results are not received within 90 days, a timer expires at the Customs Office of Export and the Customs Authority may decide to start an Enquiry Procedure and after 150 days an Invalidation Procedure.</li> <li>According to Art. 247 (1) IA where, for any of the reasons listed in Article 198(1)(b) of the Code, the goods cannot be released or where, after their release, the goods are found not to have fulfilled the conditions for that release the customs authorities shall give the declarant a reasonable time-limit to remedy the situation of the goods.</li> <li>Centralised Clearance will be possible for excise goods.</li> <li>In the models 'L3-01-19-Export of Goods Under Excise Duty Suspension Arrangements' and 'L3-01-32 Handle e-AD and Cross-Checking', the pools of EMCS actors (MSA of Dispatch, MSA of Export, Consignor) are depicted for clarity purposes after</li> </ul>

## 5.2.22. Process L3-EXP-01-20-Centralised Clearance - EIDR with Presentation Notification

### 5.2.22.1. Objective of Process

This process describes the handling of an Entry in the Declarant's Records under centralised clearance, starting with the receipt of presentation notification and deeming the declaration is accepted from the moment the declaration is entered into the declarant's records. The Supervising Customs Office verifies the validity and

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	

consistency of the presentation notification and manages the application of the control plan agreed between the customs authorities concerned. The Holder of the goods presents the goods and sends reference to the Centralised Clearance/Entry in the Declarant's Records Authorisation to the Presentation Customs Office. The Supervising Customs Office notifies the presentation customs office with a request to control or a notification of release. In the latest case, the presentation customs office can still decide to perform controls. The Presentation Customs Office performs risk analysis and verifies and applies the control plan for own control purposes. On the basis of the control results from the presentation customs office, or if the timer to receive these control results expires, the supervising customs office decides on release of the goods. If the goods are released for export, the Supplementary Customs Declaration is processed and the Customs Declaration is forwarded to the Presentation Customs Office. In case customs debt is applicable, it is to be managed by the Supervising Customs Office.

#### 5.2.22.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE
Process ID	L3-EXP-01-20
Full Name	Centralised Clearance - EIDR With Presentation Notification
Assumptions	<ul style="list-style-type: none"> <li>The particulars of the customs declaration are at the disposal of the customs authorities in the declarant's electronic system at the time when the customs declaration in the form of an entry in the declarant's records is lodged (Art. 182 UCC).</li> <li>This process does not preclude the safety &amp; security and exit of goods formalities, which are performed independently from this process (refer to L3-EXP-01-12-Exit Summary Declaration).</li> <li>The Office of Exit needs to be informed by the carrier about the authorisation reference for CC/EIDR.</li> <li>The supervising customs office and the presentation customs office are situated in two different Member States.</li> <li>The Customs Office of Exit and the Customs Office of Export are the same Customs Office.</li> <li>According to Art. 247 (1) IA where, for any of the reasons listed in Article 198(1)(b) of the Code, the goods cannot be released or where, after their release, the goods are found not to have fulfilled the conditions for that release the customs authorities shall give the declarant a reasonable time-limit to remedy the situation of the goods.</li> </ul>

#### 5.2.22.3. Tasks and Events

##### Event Received Presentation Notification

EVENT ATTRIBUTE NAME	EVENT ATTRIBUTE VALUE
Event Name	Received Presentation Notification

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	
Event Type	Message start event
Description	The declaration is deemed to be accepted from the moment the declaration is entered into the declarants' records. The PN includes the reference that the goods are available for control at the PCO with time and place of presentation. Hence, a real time business connection needs to be established between the holder of the goods and the declarant in order to communicate this information, and in time. The holder of the authorisation has to enter at least the particulars of a simplified customs declaration (Art. 234 (1)(b) IA).
Appears in the following processes	L3-EXP-01-20-Centralised Clearance - EIDR with Presentation Notification
Comment	Art. 234 (1)(b) IA
Legal Reference	N/A

### Task Verify Presentation Notification

TASK ATTRIBUTE NAME	TASK ATTRIBUTE VALUE
Task Name	Verify Presentation Notification
Task Type	Task
Description	Verification is the analysis of the validity and consistency of information provided and not the verification according to Art. 188 UCC. The Supervising customs office verifies the notification, inter alia as regards prohibitions or restrictions concerned and the MRN of the previous procedure, if any. It consults the EIDR authorisation. The authorisation defines if the goods are deemed to be released by entry in the records, if the SCO shall notify the release of the goods or if a timer is to be respected.

## 5.2.23. Process L3-EXP-01-21-Centralised Clearance - EIDR with Presentation Notification Waiver

### 5.2.23.1. Objective of Process

This process covers the release of goods for free circulation using centralised clearance, where the declaration is made in the form of EIDR, where the obligation to present the goods is waived. A supplementary customs declaration is lodged at a later stage in order to complete the formalities. However according to the control plan and for control purposes periodically a Presentation Notification is to be submitted, the process as if the waiver would not exist is to be applied. Discharge of the previous customs procedure is to be provided by means set out in the authorisation or otherwise agreed.

### 5.2.23.2. Process Details

PROCESS ATTRIBUTE NAME	PROCESS ATTRIBUTE VALUE

## 5.2.24. Process L3-EXP-01-22-Perform Controls

### 5.2.24.1. Objective of Process

If documentary controls are necessary, a check is done if all necessary documents are available. If all documents are not available, then the necessary documents are requested. After the documentary control is performed, a check is done if more documents are required. If all documents are available, a check is performed if the release is to be rejected. If the release is to be rejected, then the goods cannot be released. If the release is not to be rejected, a check is performed if the customs declaration is lodged in the form of entry into the declarant's records. In case the customs declaration is lodged in the form of entry into the declarant's records, then the goods can be released. In case the customs declaration is not lodged in the form of entry into the declarant's records, then it is verified if physical examination of the goods is to be performed. If physical examination is necessary, the goods are controlled, and a check is done if the goods can be released. If authorised by the competent customs office, the goods can be examined in a location other than the ones designated by the customs authorities and outside the specified for the purpose hours. Assistance from the declarant can be required. In case no physical examination is to be performed, the goods can be released.

### 5.2.25. Process L3-EXP-01-24-EIDR with Presentation Notification

#### 5.2.25.1. Objective of Process

This process describes the handling of an Entry in the Declarants' Records, starting with the receipt of presentation notification and deeming the declaration is accepted from the moment the declaration is entered into the declarants' records. The Supervising Customs Office verifies the validity and consistency of the presentation notification, manages the application of the control plan agreed between the customs authorities concerned and performs the controls over the goods - both documentary and physical. In case the results of the controls of the goods are not satisfactory, the Declarant is notified the goods could not be released. Then, if possible, the situation is regularised, and the customs authorities decide if the goods could be released.

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	

Providing the situation could not be regularised, the declarant is notified of the non-release of the goods. Upon the decision of the customs authorities, if the goods could not be released, then the non-release of the goods is notified. Otherwise the goods are released, and the supplementary declaration is processed. In case it is not processed successfully or rejected the overall authorisation is at risk and, as a result, revocation or suspension may be triggered. After the successful processing of the supplementary declaration the relevant statistical information is sent to the responsible statistical office. Providing there is a customs debt, the necessary formalities are completed.

##### Event Received Presentation Notification

EVENT ATTRIBUTE NAME	EVENT ATTRIBUTE VALUE
Event Name	Received Presentation Notification

High Level and Business Requirements BPM Report	REF: SC09-RfE-820
EU Customs High Level and Business Requirements BPM Report for Export and Exit	
PROCESS MODELS	

Event Type	Message start event
Description	The declaration is deemed to be accepted from the moment the declaration is entered into the declarants' records. The PN includes the reference that the goods are available for control at the PCO with time and place of presentation. Hence, a real time business connection needs to be established between the holder of the goods and the declarant in order to communicate this information, and in time. The holder of the authorisation has to enter at least the particulars of a simplified customs declaration (Art. 234 (1)(b) IA).
Appears in the following processes	L3-EXP-01-24-EIDR with Presentation Notification
Comment	Art. 234 (1b) IA
Legal Reference	N/A

### Task Verify Presentation Notification

TASK ATTRIBUTE NAME	TASK ATTRIBUTE VALUE
Task Name	Verify Presentation Notification
Task Type	Task
Description	Verification is the analysis of the validity and consistency of information provided and not the verification according to Art. 188 UCC. The Supervising customs office verifies the notification, inter alia as regards prohibitions or restrictions concerned and the MRN of the previous procedure, if any. It consults the EIDR authorisation. The authorisation defines if the goods are deemed to be released by entry in the records, if the SCO shall notify the release of the goods or if a timer is to be respected.

## 5.2.26. Process L3-EXP-01-25-EIDR with Presentation Notification Waiver

### 5.2.26.1. Objective of Process

This process covers the release of goods for export not using centralised clearance, where the declaration is made in the form of EDR, where the obligation to present the goods is waived. A supplementary customs declaration is lodged at a later stage in order to complete the formalities. However according to the control plan and for control purposes periodically a Presentation Notification is to be submitted, the process as if the waiver would not exist is to be applied. Discharge of the previous customs procedure is to be provided by means set out in the authorisation or otherwise agreed.

### 5.2.27. Process L3-EXP-01-26-Diversion

#### 5.2.27.1. Objective of Process

Goods declared for export may be presented at a customs office of exit other than that declared in the export declaration. Where the new customs office of exit is located in another Member State than that originally declared, it shall request the export information from the customs office of export.

## 5.2.28. Process L3-EXP-01-27-Export and Transit

### 5.2.28.1. Objective of Process

The model covers the different roles of the customs authorities when after release of the goods for export transit follows.

The submitted transit declaration includes reference to the export declaration. Furthermore, Customs Office of Exit receives Transit Presentation Notification from Customs Office of Departure, identifies whether it refers to known Export MRN(s) and of appropriate state and responds accordingly after this cross-check.

In case of positive cross-check, a new Transit presentation notification arrives from Customs Office of Departure, which leads to proper allocation of transit MRN to export MRN(s).

Following, Destination control results are received by the Customs Office of Exit. The Customs Office of Exit establishes if the Customs Office of Destination is appropriate - if it is situated at a border of the customs territory of the Union where the goods are to be taken out of the customs territory or in a common transit country. At any case, no matter the results are positive or negative, they are sent to the Customs Office of Export, which handles them.

Alternatively, in case of Recovery communication to Customs Office of Exit from Customs Office of Departure, the Customs Office of Exit directly sends the Exit Results to Customs Office of Export.

In case of Transit Invalidation Notification from Customs Office of Departure, the Customs Office of Exit de-allocates the Transit MRN to Export MRN(s) and ends the process.

In case of a valid Transit Presentation Notification receipt with amendment indicator, the Customs Office of Exit cross-checks and de-allocates the Export MRN(s) amended from the Transit procedure.

## 5.2.30. Process L3-EXP-01-29-Amendment of the Customs Declaration for Centralised Clearance

### 5.2.30.1. Objective of Process

This process describes the amendment which may occur during the Export Declaration under Centralised Clearance.

The aforementioned model of Centralised Clearance for Export with Amendment of the Customs Declaration for Centralised Clearance may be also applicable when goods are under Excise. The handling of National Domain exchanges between AES at the SCO and EMCS at the MSA of Export is depicted in L3-EXP-01-05.
